| Published review | securitysafetyreviewer.co.uk/UK-Safety-Camera-Network.html |

## Current award status

Security Safety Reviewer confirms that UK Safety Camera Network Ltd retains the SSR Gold Award under Award ID 482. Its current SSR editorial score is four stars out of five. The Gold Award tier and the star score are distinct: the award tier has not been withdrawn.

## Assessment and disclosure

The four-star score reflects SSR’s editorial assessment of the consultation, technical planning, completed four-camera CCTV installation and customer service, including identified areas for improvement. SSR is operated by Bert Scanlon, who is also founder and managing director of USCN. This is editorial recognition with a disclosed organisational connection, not independent third-party certification.

## Verification

Quote Award ID 482 and verification code 296 160 356 938 when requesting verification from Security Safety Reviewer. Refer to the published review for the current rating, evidence and conflict-of-interest disclosure.

Updated 17 October 2026. This document supersedes any previous verification record describing the award as five-star.
